### DETAILED ACTION

Claims 1 – 6, 11 – 14, 29 – 34 and 36 – 45 are present for examination in this case pursuant to the election response without traverse filed 2-24-05, 10-11-05. claim 13 is included being the generic parent claim to 14, claim 35 is excluded as having been cancelled in the aforementioned earlier response, claim 19 has been excluded as depending from an alternative species base claim.

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 3737

Claims 1 – 6 and 11 – 14, 29 – 34 and 36 - 45 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 – 6 and 11 – 12 of U.S. Patent No.6660024 alone or further in view of US6375615.

Although the conflicting claims are not identical, they are not patentably distinct from each other because whereas the former claims a trajectory indicator in the base claim, in one format claims 11 – 12 introduce the marker features in dependency akin to claims 11-12 in this case, as does the base claim of '615, claims 1 – 6, 13 - 15 of the former otherwise tracking these claims and claim 29 in this application, claims 30-33 of the latter tracking the respective claims of this application; claims 17 – 27 of '024 otherwise tracking remaining claims 29 – 34 and 36 – 45 of this application
